# TRAINING IN CRITICAL THINKING

AN EMPOWERING & LIFE-CHANGING PROGRAM

**SGD 750 Per Person**  
 Early Bird: SGD 600  
 FREE DVD !!! ACALAHA Lectures

Critical Thinking for Creative Leadership

Critical Thinking for Strategic Forecasting

Critical Thinking for Decision Making

Critical Thinking for Difficult Situations

**Critical Thinking** is the ability to evaluate the credibility of any piece of information / situation -- both in and of itself and in relation to its larger context.

It is indispensable for a technology-based workplace / economy / society, all overwhelmed by the ever-cascading "symbolic tsunami" that surrounds us 24 / 7 / 365.

This is especially so as the world economy experiences what looks to be a rocky period of unknown duration and extent.

In this vital /empowering/ life-changing training, you will learn how and what it means to think critically about everything -- above all, the dilemmas of an increasingly complex / high-tech / high-uncertainty global business scene.

Building on that base, you will also learn how to use **Critical Thinking** to expand your ability to deal effectively with all the emerging areas of the 21st century workplace / economy / society:

**Creative Leadership / Strategic Forecasting / Mission Critical Decision Making / Handling Difficult Situations/ Analyzing Media** -- whose economic and technological centrality grows more significant by the nano-second.
